Progress...

Proverbs 24:3-4

3 Through wisdom is an house builded; and by understanding it is established: 4. And by knowledge shall the chambers be filled with all precious and pleasant riches.

Concrete upon concrete and the building project is starting to take shape. This is the first time that I am directly involved in building a concrete structure. Sure is different than framing a wood structured building. The footer is steel and concrete, the pillars from the footer to ground level are steel and concrete and the beams for the first floor are steel and concrete. Pouring the first floor pad we used steel and concrete. You soon get the idea of what is being used to build. The roof system will be steel and tile. So the only wood in the building will be the doors and windows frames.

Thank you to each one who gave financially towards our building project. God Bless you for sharing.

Student news....

We have started our Bible studies with the students. We are meeting once a week until the building is finished and then we want to have studies twice a week. Until the building is finished we are having the studies at our house. James is teaching the first class. Our first set of classes is about how the Bible was put together and how we need to understand the differences between to Old and New Testament when we read and study the Bible.

Burkholder Family News...

Not a whole lot new happening in our lives. Just keeping busy doing all the “normal” activities in our lives. We celebrated two “big” milestones this month. Kim is blessed to share her bday with her sister. Yes our little miss turned a year old. Continue to pray for us that we can let the Light of the Father shine out through us as a family.
